YOUTH SPORTS PROGRAM DESCRIPTIONS

Youth Soccer: The YMCA Youth Sports Program helps children become not only better players, but better people as well. It's a progressive program, with multiple age-specific levels. Each week your child will be taught a new skill, practice it, and then develop it during a fun, engaging contactless soccer activity!

Youth Basketball: Participants will develop a foundation for future excellence by developing dribbling, shooting, defense & passing skills through challenging activities beneficial in high level sports.

Youth Pottery: Students are introduced to the magnificent world of clay! In this class they will learn the basics of hand-building with clay and create beautiful and functional pieces of art.

Youth Tennis: Our coaches will teach tennis skills as participants will learn the basic tactics in tennis. An emphasis is placed on developing an athletic base and teaching fundamental techniques to better implement tennis tactics. Fun progressions and games will be used to develop play.

Youth Martial Arts: Enhance flexibility, endurance and strength in a fun, motivating atmosphere through boxing and martial arts classes. Martial arts incorporates basic athletic movements adapted from boxing, kickboxing, tae kwon do and kung fu. Boxing keeps you moving as you jab and hit your way through your workout, all for a stronger you!
